## INVESTMENT OBJECTIVE AND STRATEGY

Argent Capital employs a disciplined, bottom-up process, utilizing a Change Based<sup>SM</sup> investing approach. We believe that companies undergoing change, driven either by internal or external factors, frequently result in underappreciated growth. By investing in companies undergoing positive change with attractive valuations, we seek to outperform our benchmark over the long term. Argent's Large Cap Growth strategy results in a high conviction, high active share portfolio consisting of 30-35 stocks.

'Annualized Disclosures:

1. Argent Capital Management, LLC ("Argent") is an independent investment management firm comprised of two distinct business entities: the Non-Wrap Fee/SMA Business of Argent Capital Management, LLC ("Principal Business"), which does not include wrap fee/SMA clients; and the Wrap Fee/SMA Business of Argent Capital Management, LLC ("Wrap Business"), which includes only wrap fee/SMA clients. The Principal Business claims compliance with the GIPS standards. The Principal Business has been independently verified for the periods January 1, 2003 through December 31, 2020. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Argent Large Cap Growth Equity Composite has had a performance examination for the periods January 1, 2003 through December 31, 2020. The verification and performance examination reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

- 2. This composite represents investment performance for portfolios in U.S. equities with strong earnings and growth characteristics and large capitalization, for which Argent has sole investment discretion. Portfolios typically include 30-40 equity holdings; with fixed investments initially less than 5% of total portfolio value, never exceeding 10% and cash targeted to be less than 10% of total portfolio value. This composite inception date is October 1998 and was created in January 2003. A complete list and description of composites is available upon request.
- 3. The composite is compared to the Russell 1000 Growth® Index and the S&P 500® Index, two benchmarks that may be generally relevant to the Large Cap Growth strategy's large cap growth investment style. The Russell 1000 Growth Index which measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. The S&P 500® Index measures the performance of 500 large companies listed on stock exchanges in the United Sates. It is one of the most commonly followed equity indices.
- 4. Valuations are computed and performance reported in U.S. currency. Performance results are total return, (i.e. include the reinvestment of all income). Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Past performance is no guarantee of future results.
- 5. Gross performance is presented before management and certain custodial fees, but after all trading expenses except where commissions have been waived or for bundled fee accounts. Net of fee performance is calculated by reducing gross performance by actual management fees incurred and bundled fees for applicable portfolios. The composite includes bundled fee portfolios that pay a fee based on a percentage of assets under management. Bundled fees may include trading costs, portfolio monitoring, consulting services, and custodial services. The composite included fee accounts which represented less than 1% of composite assets during the periods of 2011 2019. The composite included portfolios where commissions were waived representing approx. 32% (2019), 34% (2020), and 40% (2021) of composite assets.
- 6. Argent's annual advisory fees are calculated as a percentage of assets under management according to the following schedule; 0.75% on the first \$10M, 0.55% on the next \$15M, 0.50% on the balance thereafter, although fees may be negotiated or waived in certain circumstances. The composite includes non-fee paying accounts which represented less than 1% of composite assets during the periods of 2010 2021.
- 7. Internal dispersion is calculated using the asset-weighted standard deviation of all portfolios that were included in the composite for an entire year, net of fees. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The external deviation is based on the 36 month gross-of-fees returns of the composite and the benchmark.
